

MA40001

Philip Murray

Week 1 and 2

Aims:

- ▶ investigate a new mathematical topic
- ▶ develop communication skills
- ▶ independent study
- ▶ critical analysis
- ▶ develop programming skills

Structure

- ▶ work independently
- ▶ meet with your project supervise (you need to discuss and arrange a meeting schedule).
- ▶ weekly sessions developing communication/writing/programming skills.
- ▶ 2 p.m. on Monday is Maths seminar - you are encouraged to attend but it is optional.s

Module assessment

- ▶ presentation
- ▶ interim report
- ▶ poster
- ▶ final report + viva

Template projects and presentations will be available.

How did projects get assigned?

- ▶ Algorithm maximises overall satisfaction (tries to get as many students as high up preference list as possible) and is constrained by supervisor workload
- ▶ If you are not satisfied, please come and discuss with me.

Feedback

- ▶ Formative assessment
 - ▶ Feedback on submitted weekly work
 - ▶ Feedback on practice presentation sessions
 - ▶ Feedback from your supervisor in meetings
 - ▶ Feedback on documents that your supervisor reads in advance of submission
- ▶ Summative assessment
 - ▶ Receive an email with grades and feedback from examiners

Any potential issues

- ▶ 30 credit module
- ▶ Speak with your project supervisor
- ▶ Come and speak with me
- ▶ SSLC

Tasks for Weeks 1 and 2

- ▶ Get assigned your project
- ▶ Set up a meeting with your project advisor
- ▶ Devise a plan for how you are going to work on your project
- ▶ Read Chapter 1 of lecture notes
- ▶ Start using Quarto (Chapter 2 of lecture notes)
